

Quantum projects

Producing a step change in innovation and improvement in the learning and skills sector.

Do you have Subject Learning Coaches, Advanced Learning Coaches, E-Guides, or Professional Development Advisers in your organisation?

LSIS's Teaching and Learning Programme would like to invite you to take part in an exciting action research project using at least two change agents (Subject/Advanced Learning Coaches, eGuides or eCPD Professional Development Advisers) to drive forward the innovation and improvement agenda of your organisation through the Quantum projects. These projects aim to produce a step change in teaching and learning through funding that will allow you to combine their skills in a whole organization approach to innovative and improved practice.

You can apply for up to £27,000 per project and the projects must be completed by the end of February 2010. The application process couldn't be easier, simply log into www.tlpfunding.net for further information and to upload your project summary and full application form. Collaborative projects between institutions are welcome. Support will be available to you every step of the way.

If you have any questions or queries regarding the Quantum projects, contact us on 0845 6029154 or email subjectlearningcoach@nordanglia.com

Let LSIS help you harness the power of your change agents through this exciting initiative.

Funded by the Learning and Skills Improvement Service (LSIS)*

Eligibility criteria applies: only open to Learning and Skills Council funded providers. Funding is for release of staff time and professional development. Capital items are not allowable, but can be used to show matched funding.
