

Key Points of Open Source Economic Development

Key Points

Key Points

* Create a safe civic space for complex thinking

Key Points

- * Create a safe civic space for complex thinking
- * Define rules of civility (because with networks, civility is strategic)

Key Points

- * Create a safe civic space for complex thinking
- * Define rules of civility (because with networks, civility is strategic)
- * Remember that everyone is watching their own movie

Key Points

- * Create a safe civic space for complex thinking
- * Define rules of civility (because with networks, civility is strategic)
- * Remember that everyone is watching their own movie
- * Don't argue with the soreheads

Key Points

- * Create a safe civic space for complex thinking
- * Define rules of civility (because with networks, civility is strategic)
- * Remember that everyone is watching their own movie
- * Don't argue with the soreheads
- * Go slow at first, to go fast later

Key Points

- * Create a safe civic space for complex thinking
- * Define rules of civility (because with networks, civility is strategic)
- * Remember that everyone is watching their own movie
- * Don't argue with the soreheads
- * Go slow at first, to go fast later
- * Guide the conversations with appreciative questions

Key Points

- * Create a safe civic space for complex thinking
- * Define rules of civility (because with networks, civility is strategic)
- * Remember that everyone is watching their own movie
- * Don't argue with the soreheads
- * Go slow at first, to go fast later
- * Guide the conversations with appreciative questions
- * Manage complexity with simple rules

Key Points

- * Create a safe civic space for complex thinking
