

Document Management Seminar Agenda

10:00 – 10:30 a.m. What is Content Management?

Learn how content management helps you scan, index, search, retrieve, store and organize an ever-growing collection of disparate items resulting in increased efficiency and reduced processing costs.

10:30 – 11:00 a.m. Customer Case Study

Learn how an organization right here in the Upstate has implemented a document management system and proved an ROI in less than a year.

11:00 – 11:30 a.m. Enterprise Content Management

Implementing one content management enterprise-wide eases the burden on IT. It's easier for you to support and maintain. Learn how enterprise solutions can help you provide fluidity to your company.

11:30 – Noon Using SharePoint as a Content Management System

What are the benefits? How does this integrate with your existing systems?

Noon – 1:00 p.m. Lunch
