The Great Canadian KYMCO Winners!

The Great Canadian KYMCO Contest has given both KYMCO Canada and our local authorized KYMCO dealers an opportunity to give back to Canadians. This year we allocated five KYMCO vehicles to donate to individuals or organizations that stand out in our communities. We got some outstanding nominations, but there can only be 5 winners, and here they are!

The Cool Aid Society – Victoria, BC

The Cool Aid Society is a non-profit organization with over 300 volunteers that has been working to eliminate homelessness through community based solutions since 1968. Nominated by Scooter Underground, the Cool Aid Society will receive a donation of a KYMCO Vitality 50 2T scooter which will allow staff members to travel around their urban centre and reach marginalized members of their community. A scooter is particularly helpful in this effort as it is a friendly and non-threatening vehicle in the eyes of the community members to whom they are reaching out. Congratulations Cool Aid Society on winning the Great Canadian KYMCO Contest and on the support you provide your local community!

Municipal District of Bonnyville Public Safety Department – Bonnyville, AB

The Municipal District of Bonnyville Public Safety Department responds to the needs of their community by providing effective local law enforcement and related community based services, all in an accountable and cost effective manner. With a large ATV community, the department offers training for safe and lawful operation of ATVs to school age children through their School Resource Officers. They also patrol approximately 70km of the recreational trail system that spans the entire municipality. Nominated by X Power and Performance, the department will be awarded an MXU 500 ATV which will provide them with a modern, reliable vehicle that will not only be used to patrol the recreational trail system, but will also be used for ATV safety courses with the youth of the community. Congratulations to all the staff in the Public Safety Department on winning the Great Canadian KYMCO Contest and on the support you provide to your Municipality!

Ontario Camp for the Deaf – Parry Sound, ON

Established in 1962, The Ontario Camp for the Deaf is run by the Bob Rumball Organization. The Camp aims to meet the social, recreational and spiritual needs of the deaf and special needs community (both children and adult) in a residential

summer camp setting. The camp operates solely on donated funds, goods, and services while subsidizing over 60% of the children who attend. Nominated by Studio Cycle Group, the Ontario Camp for the Deaf has been awarded a UXV 500 UTV to help them not only maintain the 400 acre camp ground, but to also help transport visitors around the property. It is worth noting that the camp is also a CMRC sanctioned race venue which welcomes hundreds of riders and supporters to their site every summer. Congratulations to everyone at the Bob Rumball Organization and to all volunteers who work at the camp on winning the Great Canadian KYMCO Contest and on the support you provide to the deaf, special needs, and ATV communities in Ontario and beyond!

Zec Mars-Moulin - Laterrière, QC

Established in 1978, Zecs are territorial infrastructures that are run by non-profit organizations; they are responsible for the management and conservation of wildlife on their territories. The 15-20 volunteers at Zec Mars-Moulin educate local visitors and tourists alike about the wildlife in the area, responsible hunting and fishing, and the importance of environmental protection. Nominated by Bouchard Sports Loisirs, and the recipients of an MXU 500 ATV, Zec Mars-Moulin will be able to use the quad as both a surveillance vehicle and a work vehicle to transport equipment and people. Congratulations to all the volunteers at Zec Mars-Moulin on winning the Great Canadian KYMCO Contest and on the work you do in wildlife conservation and the protection of the environment in your area!

Springhill Fire Department - Springhill, NS

Established in 1890, the Springhill Fire Department with its 30 volunteers faces some very difficult terrain in its area. From large open fields surrounded by rural homes and businesses to forested acreage, the firefighters sometimes find it difficult, if not impossible, to reach some of these areas with conventional fire equipment. Nominated by Warren MacDonald & Son Garage Ltd., and the recipients of an MXU 500 ATV, the Springhill Fire Department has also offered to make the unit available to assist the efforts of the local Search and Rescue team. Congratulations to all the brave volunteers at the Springhill Fire Department on winning the Great Canadian KYMCO Contest and for the services you provide to your local community!

THE GREAT CANADIAN KYMCO CONTEST

Giving back to **YOUR** community!
