

Supporting girls who live on the streets

Who we are

Vision of Hope is a Zambian organisation that supports some of the most disadvantaged street children in the country – young girls.

Due to extreme poverty and the deaths of family members due to HIV and AIDS, girls as young as 12 find themselves living on the streets of the capital, Lusaka. Without regular access to food and no access to education or shelter, these girls are susceptible to abuse on the streets.

Vision of Hope runs a weekly drop-in centre that offers these girls a rare safe space where they can socialise, eat regular meals, receive medical care and get practical advice from skilled professionals on how to keep themselves safe and healthy on the streets.

How you can help

Vision of Hope is looking for supporters for the continuation of its drop-in centre. Any contribution you can make will be appreciated but here are some examples of the difference your generosity can make.

To support one girl to attend the drop-in centre for **one full day** costs just:

60,000 ZMK // £7.50 // \$11.50

To support one girl to attend the drop-in centre for **one month** costs just:

250,000 ZMK // £30 // \$45

To provide one girl with **breakfast and lunch for a day** costs just:

45,000 ZMK // £5.50 // \$8
